

# Santa Rosa Construction Alert

Due to ongoing construction over the next year, the northbound Airport Blvd. exit will be closed. If you are traveling to the Santa Rosa VA CBOC, you should use either the Fulton Road exit (the one before Airport Blvd.) or the Shiloh Road exit (the one after Airport Blvd.) and come back south on the freeway. The southbound Airport Blvd. exit is still open. If you choose the Fulton Rd., exit you can expect significant delays. Another alternative is to take the Mark West Springs/River Road exit and go right to Old Redwood Highway, then north to Airport Blvd.

Construction updates will be available at (707) 781-2245, [www.dot.ca.gov/dist4/101airportblvd](http://www.dot.ca.gov/dist4/101airportblvd) or on Twitter: @Sonoma101. You are encouraged to check for the latest updates prior to your travel.
